Comments I support the proposal of the transfer of the reserves back to the iwi in particular the Hoani Waititi Memorial Recreation Reserve.

If the iwi / hapu pay rates for the reserve, would Council still be maintaining the grounds or would maintenance be the responsibility of the hapu/iwi? If the later is the case, does that mean hapu/iwi will no longer have to pay rates? Even though this is a camp ground, the services up there are limited if any at all. Also, are there any restrictions in the district plan in regards to development of the land if future development was to be considered?

If the Iwi/hapu take full ownership of the reserves does that mean they can do with it as they please? Or will there be restrictions under the district plan?
