**Reasons for support or oppose** I support our horse whānau and horses are apart of our town. Work with our horse whānau not against them. Come up together with great solutions to an ongoing issue. Yes safety is paramount therefore work out solutions. There is plenty of vacant land around our town that council own. Work with the horse whānau offer the land to this group and no doubt they would take care of the property and this would stop horses from roaming. Maybe employ someone to handle this issue with sympathy and not just a job that some see as a nuisance.
