**Reasons for support or oppose** Horses in Opotiki township is cherished. I have never lived in Opotiki but recently bought a house in the township earlier this year, this place is special and the presence of the horses in the township makes Opotiki one of the unique places in NZ. I have had numerous people mention this to me 'isn't that the place with horses in town?' And the like the council should be celebrating and making this work for Opotiki's advantage. It is a great advertisement for the town. As an Aucklander it is something we treasure as it is rarely seen now on the Auckland fringes and we miss it. Treasure at whatever the cost, though without inflated greed.
