**Support or oppose** Oppose

---

**Reasons for support or oppose** It takes away something that helps this town be what it is... Help those who have issues with their horse rather than try and outlaw their pets/friend/family member.. the fact you state nuisance as a driving force behind this bill says to me you have people moaning. How about you deny them... The horse have roamed for years yet I don't see any horse signs on any rds? Why wouldn't the council have tried taking simple measures like that... Even down the Waioeka where I farm there is no warning signs for stock yet stock constantly on the Rd... Sounds like a hate session. Feels like opotiki is about to over run with greed and an out of touch bunch of new comers trying to push there ways open those who have lived this way of life for generations
