**Reasons for support or oppose** For me horses are apart of the family. Horses bring us so much happiness. We have paid lease fees to the council for many many years now and have never had any issues with our horses. We were continuously fixing the fences broken from people with our own money and time. My children have all grown up with horses very close to them from my eldest son who will be 16 next week to my baby who is now 5. If our horses are banned from the township we don't know where else we will be able to house them. Please continue to let us lease the paddocks.
