Submission number 95

Name Nicole Clarke

Support or oppose Support

Reasons for support or oppose While of course some horse owners are responsible and manage their animals ensuring they don't get out and become a danger/nuisance too many are not. Every day there are posts on the Community Facebook noticeboard about horses loose in places they aren't supposed to be. This isn't even a case of a few ruining this for the majority at this point, the horses need to be brought under control before there's a serious accident. My interpretation of the existing bylaw 8.4.3.a would prohibit horses (being considered stock) from being in an urban area full stop already.
