

STATEMENT OF INTENT FOR 2025-2028

June 2025

“COUNCILS PARTNERING FOR VALUE AND SERVICE”

1. Introduction

This Statement of Intent (SOI), developed under Schedule 8 of the Local Government Act 2002:

- Declares a public statement of the activities and intentions of BOPLASS Ltd and the objectives to which those activities will contribute.
- Provides an opportunity for the shareholders to influence the direction of BOPLASS Ltd, and
- Provides a basis for the accountability of the Directors to the Shareholders for the performance of BOPLASS Ltd.
- Covers BOPLASS Ltd and any subsidiary company established in pursuance of the objectives herein.

2. Background and Benefits

The councils that operate within the Bay of Plenty and Gisborne Regions have formed a Council Controlled Organisation (CCO) to investigate, develop and deliver Joint Procurement and Shared Services projects where delivery is more effective for any combination of some or all of the councils.

Since inception, estimated financial savings of over \$34 million have been achieved by the participating councils through undertaking joint initiatives. BOPLASS is forecast to return in excess of \$2.5 million in savings in the 2024-25 financial year.

Other benefits that have been achieved through collaboration are:

- improved levels and quality of service;
- a co-ordinated and consistent approach to the provision of services;
- reductions in the cost of support and administrative services;
- opportunities to develop new initiatives;
- economies of scale resulting from a single entity representing many councils in procurement.

These benefits and opportunities can apply to all councils irrespective of location or size.

Business processes, information architectures and functional tools differ in each council to varying degrees. The BOPLASS strategies facilitate a journey of progressive development using the approach identified in the BOPLASS Strategy and Action Plan to:

- enhance the capability to collaborate;
- encourage the elimination of barriers to collaborative action; and
- identify services that deliver viable business cases.

A generic sequence or stages of collaboration between multiple councils is followed to develop Shared Services, as shown in *Figure 1*.

Figure 1

Many of the BOPLASS Joint Procurement projects have supported the development of standard products, services or solutions across the councils. These standards assist in creating a foundation for the delivery of collaboration within the councils.

Examples of Joint Procurement and Shared Service projects are:

- Infrastructure Insurance
- Collective Training
- Aerial Imagery and LiDAR
- Provincial Growth Fund Co-funding for LiDAR Capture
- Standardised Community Engagement App
- Lone Worker Field Solutions
- Robotic Process Automation
- Accounts Payable Automation Software
- Print Media Licencing
- Insurance Valuations
- Contractor Online Inductions
- Health and Safety Management Software
- Radio Telephony (RT) Strategy
- Solid Waste Management
- Health and Safety Inter-Council Audits
- Asbestos Protocols
- Sustainable Public Procurement
- Health and Safety Benchmarking
- Video Conferencing Services
- Archive Services
- Inter-Council Network (ICN) Review, Redesign and Renegotiation
- Debt Collections
- Collaboration Portal
- Capital Construction and Civil Works Projects
- Fortigate Firewall Services
- Wireless WAN
- Inter-LASS Collaboration
- Human Resources Information Systems
- CCTV and monitoring

A full list of projects is provided in Appendix B.

3. Our Vision

“COUNCILS PARTNERING FOR VALUE AND SERVICE”

4. Objectives of BOPLASS Ltd

Working together with the full support and involvement of staff, we will provide benefit to councils and their stakeholders through improved levels of service, reduced costs, improved efficiency and/or increased value through innovation.

These will be achieved primarily through:

Joint Procurement

Being the procurement of services or products by two or more councils from an external provider regardless of whether the service is paid for through BOPLASS or individually by participating councils.

Shared Services

Being the participation of two or more councils in the provision of a common service which may be jointly or severally hosted.

5. Nature and Scope of Activities

The principal nature and scope of the activities of BOPLASS Ltd is to:

- Use Joint Procurement to add value to goods and services sourced for its constituent councils.
- Establish the underlying technology, framework, platform and policies to enable and support collaboration.
- Facilitate initiatives that benefit councils and their stakeholders through improved levels of service, reduced costs, improved efficiency, innovation and/or increased value.
- Pursue best practice in the management of all activities to obtain best value and minimise risk.
- Demonstrate fiduciary responsibility by ensuring that its activities are adequately funded from savings achieved, levies, council contributions, or Government funding where available.
- Allow other councils or organisations to participate in its activities where this will benefit its constituent councils directly or indirectly.
- Actively monitor and engage with Shared Service developments across the public sector to identify opportunities for further development and establishing best practice.
- Represent the collective views of its Shareholders in matters with which it is associated.

6. Sustainable Future: Environmental, Social and Governance (ESG)

The board recognises the importance of ESG in BOPLASS' role and ensuring that integrated risk management, non-financial outcomes, and Te Tiriti are considered in all BOPLASS joint procurement and shared services initiatives.

The company is committed to operating all aspects of its business with a focus on protecting and enhancing our communities today and in the future through sustainable environmentally responsible business practices, social contribution, and good governance.

The company has always had a stakeholder-centric approach, ensuring the company's objectives, goals and the undertaking of business are aligned with our constituent councils, our wider communities and supporting ESG outcomes that have wide-ranging benefits.

While achieving financial savings for member councils through BOPLASS joint procurement is a key objective, the company recognises the importance and responsibility of social procurement and will continue to consider the broader environmental, social and cultural outcomes as part of all BOPLASS procurement processes.

As examples, BOPLASS is working towards satisfying ESG criteria within social procurement by:

- Increasing access to BOPLASS procurement contracts for NZ businesses and local businesses, with particular focus on those groups that may have limited access to opportunities (such as Māori and Pacific Peoples' businesses).
- Giving consideration to organisations that provide employment opportunities to targeted groups and promote inclusion and diversity within their workforce.
- Recognising vendors that will help future-proof the ability of New Zealand businesses to trade.

With a focus on *Social Sustainability*, BOPLASS ensures a balanced approach is taken with the company's activities to create positive social and cultural outcomes for the local communities it serves while also maximising positive outcomes for Māori and the broader community.

Environmental Sustainability is a priority in all BOPLASS business activities – internal and external. Through collaboration and partnership with its constituent councils, BOPLASS will operate in an environmentally responsible way and will embed sustainability considerations (including ethical considerations, for example, the impact on people and communities), a culture of excellence across its wider business and all joint procurement and shared services initiatives.

Te Tiriti o Waitangi responsibilities and outcomes are a driver for governance and management decisions within BOPLASS, include acknowledging and involving mana whenua as Kaitiaki o Te Taiao in project decisions impacting on land or natural resources. The company is committed to providing and improving opportunities for

Māori to contribute to local government decision-making processes and establishing collaborative partnerships and processes that reflect mutual outcomes.

7. Governance Structure

BOPLASS Ltd will conduct itself in accordance with its Constitution, its annual Statement of Intent, and the provisions of the Companies Act 1993 and the Local Government Act 2002.

The Company is governed by its directors. To ensure total synergy between the Company's activities and its council shareholders' activities, nine Directors are also the current Chief Executives of their respective shareholding councils. The dual roles recognise the interdependence of BOPLASS and its councils in the undertaking of its activities.

The Board also includes an independent Chair, appointed with specific skills and knowledge to add incremental value. This appointment brings experience and specialist skills that are complementary to those held by the other Directors.

Shareholder	Appointed Director
Bay of Plenty Regional Council	Fiona McTavish
Gisborne District Council	Nedine Thatcher-Swann
Kawerau District Council	Morgan Godfery
Ōpōtiki District Council	Stace Lewer
Rotorua Lakes Council	Andrew Moraes
Taupō District Council	Julie Gardyne
Tauranga City Council	Marty Grenfell
Western Bay of Plenty District Council	Miriam Taris
Whakatāne District Council	Steven Perdia
Independent Director and Chair	Craig O'Connell

Sub-groups of council subject matter experts have responsibility for regular monitoring of operational aspects of BOPLASS projects, allowing the Board to primarily focus on supporting the strategic development of the organisation.

Each activity or project is managed by an Advisory Group, nominated by the shareholding councils in that particular service. The Board retains the right to approve nominations to the Advisory Groups and all of their material decisions – there is only one Board of Directors and that remains at the umbrella or holding company level.

The Board has established a principle that participation in each initiative is decided by individual councils on an 'opt in' basis.

Services delivered are subject to a formal service level agreement between BOPLASS Ltd and the participating councils, outlining the services and activities provided, where when and how; and reflecting the capital and operational costs being met by each service shareholder.

Joint Procurement initiatives consistent with their nominated role may be undertaken by any advisory group or as approved by the Operations Committee. In considering Joint Procurement initiatives, the Company will take into account the opportunities available through All of Government (AoG) purchasing arrangements and, where there is demonstrated benefit to the Company or its constituent councils, support such initiatives. In assessing the benefits of a Joint Procurement initiative, opportunities for integration shall be considered. The Board has recognised that the availability of All of Government Procurement options has the potential to impact on BOPLASS' ability to provide procurement options in some categories.

Subject to the approval of shareholders in accordance with the shareholder agreement the Directors may decide that a particular activity is best managed as a subsidiary company and proceed accordingly. Any subsidiary company whose objectives are in accordance with the objectives set out in this Statement of Intent shall not be required to have a separate Statement of Intent.

8. Future Developments

The company recognises the importance of remaining adaptive in what is a complex and changing working environment. BOPLASS continues to look at new opportunities or alternative approaches to progressing projects that benefit our shareholding councils.

The Board recognise that the drive for change and/or collaboration in some key areas of council business will often be led by other groups, e.g., waters reform, RMA changes. Although BOPLASS may not be leading these specific projects, the organisation may be considered as one of the vehicles available to assist with managing collective regional outputs from these projects.

BOPLASS Joint Procurement opportunities will continue to be actively pursued to ensure maximum savings and benefits are delivered to the participating councils through existing and new contracts.

Joint Procurement initiatives will be considered by the Board and/or its advisory groups where there is demonstrated support from two or more member councils, with councils participating on an opt-in basis.

BOPLASS will explore opportunities for councils to develop ICT solutions using middleware and cloud technologies that allow for future sharing and the development of Shared Services without the wholesale replacement of IT systems.

Shared Services projects are approved by the board based upon identifying initiatives that will provide genuine value to all participating councils. Shared Services may be delivered by BOPLASS, partnering with a LASS, or in conjunction with multiple LASS.

The Board will be looking for commitment from councils to participate in collaborative services and to provide a lead in the identification and management of opportunities and projects.

9. Inter-Regional Collaboration

The board recognise the benefits of BOPLASS proactively partnering with other local authorities and Shared Services organisations where they are either developing or considering developing cost effective services or Joint Procurement initiatives that are of value to the BOPLASS councils. The Board is constantly looking to expand on this activity and the range of opportunities for inter-regional partnering. BOPLASS will work towards providing improved visibility of projects being undertaken in other regions that may provide opportunities for multiple councils to participate in.

Where practicable, BOPLASS will work with other LASS or councils to leverage off, or participate in, services established by other collective local government groups.

The Collaboration Portal, established by BOPLASS for the sharing of information on Shared Services or Joint Procurement opportunities, has been made available to the wider local government community to provide better visibility of common projects and to encourage further cross-regional collaboration. BOPLASS will continue to market the benefits of inter-region collaboration and assist other councils through providing support and access to the Collaboration Portal.

BOPLASS has provided substantial savings to its shareholding councils through joint procurement undertaken with neighbouring regions. The Board has tasked BOPLASS with leading further inter-regional joint procurement initiatives that will provide benefit to all parties through an aggregated approach.

Significant benefits and savings have been achieved in the placement of councils' insurance through working in conjunction with other LASS. BOPLASS is considered a leader in the development of the interLASS insurance collective. Promoting the size of the aggregated LASSes to provide critical mass and maintain our favourable position within the insurance industry will continue to be leveraged.

10. Stakeholder Engagement

BOPLASS recognises the ambitious plans our constituent councils have for their communities and endeavours to support these aspirations through:

- Regular engagement at project, management, and governance level.
- Including councils' short, medium, and long-term goals within BOPLASS planning.
- Using quality information from councils to guide our decision-making.
- Identifying and developing services that directly benefit councils and/or their communities.
- Monitoring councils' future plans and remaining agile to change to include these aspirations in our own planning.
- Ensuring there are regular communications about individual council's LTP developments to assist BOPLASS with aligning with councils' strategic direction.
- Regularly communicating to ensure stakeholders are aware of what we are doing and why we are doing it.
- Involving councils in our decision-making and planning.

11. Performance Targets

To ensure the Company continues to operate effectively in both governance and management terms over the next three years the targets are to:

Target	How	Measure
Ensure supplier agreements are proactively managed to maximise benefits for BOPLASS councils.	Manage and/or renegotiate existing contracts.	Contracts reviewed annually to test for market competitiveness. New suppliers are awarded contracts through a competitive procurement process involving two or more vendors where applicable.
Investigate new Joint Procurement initiatives for goods and services for BOPLASS councils.	Procure from sources offering best value, service, continuity of supply and/or continued opportunities for integration. (Current identified projects are listed in Appendix B.)	A minimum of four new procurement initiatives investigated. Initiatives provide financial savings of greater than 5% and/or improved service levels to the participating councils.
Identify opportunities to collaborate with other LASS in Procurement or Shared Service projects where alliance provides benefits to all parties.	BOPLASS to regularly engage with other LASS to identify and explore opportunities for further inter-regional collaboration.	Quarterly reporting on engagement and a minimum of one new collaborative initiative undertaken annually.
Implement Shared Services demonstrating best practice and added value to participating councils and stakeholders.	Identify Shared Services projects of benefit to two or more councils and lead the implementation.	Initiate at least one new Shared Service each year and no less than two Shared Services successfully implemented within three years.
Communicate with each shareholding council at appropriate levels.	Actively engage in obtaining political support for identified projects.	Information provided to elected members, and feedback sought, on BOPLASS projects, benefits to local communities, and value added to each council.
Ensure current funding model is appropriate.	Review BOPLASS expenditure and income and review council contributions and other sources of funding.	Performance against budgets reviewed quarterly. Company remains financially viable.

12. Balance Sheet Ratios

The Local Government Act 2002 Schedule 8 (9) requires the SOI to include the projected ratio of shareholders' funds to total assets within the Forecast Statement of Financial Position. As at 30 June 2024 the consolidated Shareholder funds comprised \$27,197 and the total assets were \$1,608,694. The resulting ratio is 1.69%.

As asset owning Shared Services are approved, the Board will, if appropriate, provide a mechanism for the recognition of each council's contribution.

13. Accounting Policies

13.1 Statement of Accounting Principles

The Company will adopt accounting practices that comply with NZ IFRS, the requirements of the LGA and the Financial Reporting Act 1993.

13.2 IPSAS Accounting Standards

As a Public Sector Public Benefit Entity (PS PBE), the Company has elected to report using International Public Sector Accounting Standards for Public Benefit Entities under Tier 3 PBE standards.

13.3 Measurement Basis

The Company will follow generally accepted international accounting principles for reporting of earnings and financial position.

13.4 Specific Accounting Principles

The following are principles which will have a significant effect on the measurement of financial position:

- Accounts Receivable are stated at their expected realisable value after writing off any known bad debts and providing for doubtful debts.
- Investments are valued at the prevailing market value.
- Fixed assets are recorded at cost, less accumulated depreciation.
- Any liability for overseas funding of equipment, systems or services is based on the prevailing exchange rate as at balance date.
- Where intangible assets are purchased, such as intellectual property, these are capitalised and written off on a straight-line basis over their expected life, but no greater than four years.
- All assets are depreciated over their expected useful lives. Depreciation is provided on a diminishing value basis over the estimated useful life, at the same rate as is allowed by the Income Tax Act 1994.
- It is not envisaged that the Company will hold inventories, other than those that might relate to providing information services to a number of parties. They will be valued at net realisable value.
- Taxation will be provided as required in line with relevant legislation.
- In accordance with the Public Audit Act 2001 and the Local Government Act 2002, the office of the Auditor General will be responsible for the audit of the Company's financial statements.

14. Distributions to Shareholders

The Company is not expected to make profits that would ordinarily be distributed by way of dividends. Any surplus funds (after tax) remaining from an activity, or the annual operations of the Company shall be carried forward to the ensuing year and may be used to reduce service costs, invest in further developing other services, and/or as the Directors may decide.

15. Information to be Provided to Shareholders

The Company will deliver the following statements to shareholders:

- On a three-monthly basis the Financial Position and Cashflow.
- Within two months of the end of the first half of the financial year: Financial Performance and Financial Position.
- Within three months of the end of the financial year the following audited statements: Financial Position, Movements in Equity, Cashflows, Service Performance plus a summary of how the Company has tracked against its objectives and prospects for the next financial year, and a report on the Company's medium to long term plans.
- Six monthly summaries of project activities included in Half Yearly and Annual Reports.

16. Procedures for the Purchase and Acquisition of Shares

The Board will give approval before BOPLASS Ltd subscribes for, purchases, or otherwise acquires shares in any company or other organisation, which is external to the group.

17. Activities for Which the Board Seeks Compensation

The ongoing activities to identify, develop, procure Shared Services will be budgeted for in advance, subject to a business case and either funded by individual councils without BOPLASS Ltd involvement, or agreed by the Board to be funded by BOPLASS Ltd with consequent recovery from participating councils.

Shareholding councils will contribute to the operational costs of the Company on an annually agreed basis.

The Company will also seek contributions by way of a levy or administration charges on services provided or administered. In determining an appropriate charge, the Directors may take into account the cost of running the Company, its future operational requirements, the nature and cost of the service provided, benefits achieved and councils' ability to pay.

The Company may provide services (at a cost recovery or a cost-plus basis) to other non-shareholding councils within or beyond the region. Any surplus from such activity will be used to either reduce service costs and/or invest in further developing of that or other services, as agreed by the Advisory Group and by the Board.

18. Value of Shareholder's Investment

The Directors estimate that, at this stage, BOPLASS Ltd has limited commercial value. As each shareholder's investment in BOPLASS Ltd is less than \$20,000, the Board believe that fairly represents the value of their investment. The Directors will reassess the value of this shareholding on or about the 1st of March each year.

19. Financial Forecasts

The Forecast Financial Statements for the years 2025-2028 are included (Appendix A).

The Aerial Photography revenue/expenses reflects the flying programme determined by the participating councils which includes interim flying programmes and extensive region-wide flying programmes over the next five years.

A continued increase in Recoveries has been forecast to reflect the direct recovery of purchases made on behalf of councils through Joint Procurement projects.

It is the company's intention to always fully recover costs incurred on behalf of participating councils.

SOI Forecast 2025/28	Budget 2024/2025	Forecast 2025/2026	Forecast 2026/2027	Forecast 2027/2028

Undertaken Joint Procurement Projects

Requiring ongoing management for performance, renewal or replacement:

- Accounts Payable automation software
- Advertising services
- Aerial imagery and LiDAR
- Air travel services
- Antivirus software
- Archaeological services
- Asbestos protocols
- Banking
- Capital construction and civil works
- Cloud services
- Collective training services
- Community engagement app
- Courier services
- Cyber insurance
- Document management – EDRMS
- Document storage
- EFTPOS services
- Electricity
- Electronic purchasing
- EMA membership
- Firewall Services
- FME Server
- Fuel
- Geospatial training services
- GIS regional technical advisor
- GIS software
- GPS vehicle tracking
- Health & Safety benchmarking
- Health & Safety management software
- Health & Safety training services
- Health & Wellbeing online platform
- Historic imagery digitisation
- HR information systems
- Infrastructure as a Service
- Insurance brokerage services
- Insurance – General
- Insurance – Infrastructure
- Internet services
- IPWEA library
- Media monitoring
- N3/GSB membership
- Oblique imagery
- Office supplies
- Postal services
- Print media copyright services
- Provincial Growth Fund co-funding
- Radio telephony
- Rapid antigen tests
- Reprographic – printers/copiers
- Risk management workshops
- Security services
- Staff wellbeing portal
- Telephony – voice, data, mobile
- Tender facilitation
- Transactional banking
- Travel and accommodation services
- Valuation services provider
- Video conferencing services
- Website analytics
- Wireless WAN

Shared Services

Managed by BOPLASS or by one or more constituent councils:

- After hours call management
- Contractor H&S prequalification
- Debt recovery services
- Employee benefit schemes
- FME licensing pool
- GIS imagery data storage
- GIS support (inter-council)
- GIS web services
- Health and safety auditing
- Historic aerial imagery digitisation
- Insurance COE
- Inter-council network
- Internal audit services
- MahiTahi LG Collaboration Portal
- Media monitoring
- Occupational health services
- Radio telephony strategy
- Section 17a reviews
- Shared licence server
- Solid waste services
- Standards NZ
- Video conferencing hosting
- Waste Operator and Licensing Data System

Projects for Consideration

- Agenda management software
- Archive services
- Asset Management
- Building consents
- Business continuity planning
- CCTV monitoring
- Centralised insurance resource
- Chemicals
- Consents processing
- Contractor online inductions
- Debt Management
- Diversion of putrescible waste from landfill
- Driver training
- Drug & Alcohol testing
- Electoral Officer services
- Engineering Codes of Practice
- Fleet purchasing and management
- Geospatial services
- Health & Safety management system
- Health insurance
- High volume print
- ICT security policies
- Insurance valuations
- Inter-council secondments
- Joint software support
- LGOIMA requests
- Lone worker field solutions
- PPE & uniform
- Property valuation services
- Rates collection
- Regional contractor database
- Risk and total assurance
- Solid waste regional facilities strategy
- Staff engagement survey systems
- Vehicle monitoring
- Web services
