Comments I have visited Whanarua bay for over 34 years. I started visiting when I was young child and my parents took there to visit a family bach. After 20 years of visiting this wonderful spot. My whānau (aunty) were able to purchase a bach in Whanarua Bay. We have had access to the bay for all this time and always treated it with the respect it deserves. For people to potentially lose access to this, is sad not just for the owners. But for the many people that visit, the beach and also access the land. I hope this submission adds to the voice of many people who visit the area and take into account.
