**Reasons for support or oppose** My reason for opposing the amendment is because: 1. Horses are part of our community 2. Horses create memories in our children's and grandchildren's upbringing. Taking this away from our kids is like taking craft away from our people Instead of banning horses from our community; let's all work together to put some simple rules in place I.e no horses in the Main Street. The solution to this problem isn't removing part of Opotiki history
